**PRO-LIFE
VOTERS
WIN A
STUNNING
VICTORY
FOR THE
UNBORN**

"Pro-life voters came through and helped win a stunning victory for the unborn on November 8th! Pro-abortion forces are in shock. They were certain Hillary Clinton would win and usher in an era of unlimited abortion on demand...Now the fight moves to the Supreme Court. Donald Trump now has the opportunity to give us a justice who will uphold the Constitution, in the mold of Justice Antonin Scalia, who died in office earlier this year...But those of us old enough to remember the nasty, personal attacks on honorable Supreme Court nominees like Robert Bork and Clarence Thomas know what is in store for Donald Trump's upcoming Supreme Court nominee... the vicious assaults on Bork and Thomas, nominated by pro-life presidents Ronald Reagan and George H.W. Bush, were in no small part because the nominees opposed *Roe v. Wade*, the Supreme Court case that legalized abortion...We can't stand by and let a new nominee fight that fight alone! **We need to mobilize and get millions of Americans to contact their Senators and insist that they confirm a Supreme Court justice who will defend and honor the Constitution.** . . .The unborn call out urgently for new help to defend their lives and we are all needed now more than ever." **NOVEMBER 2016 LETTER FROM Carol Tobias, President, National Right to Life**

**ABORTIONS
CONTINUE
DOWN-
WARD
TREND**

WASHINGTON – The U.S. Centers for Disease Control and Prevention today released its annual "Abortion Surveillance Report," for 2013 and found the number of abortions had decreased by 5% from 2012. Relying on reports from 47 state health departments, the CDC reported 664,435 abortions for 2013. The CDC numbers provide a snapshot into the continuing downward trend in abortions. However this figure does not provide a complete picture of abortion in the U.S. because it does not include abortion data from California, the nation's most populous state, New Hampshire, and Maryland.

"We give thanks that more women are rejecting abortion and choosing life for their unborn children," said Carol Tobias, president of National Right to Life. "But we must remain vigilant in the face of an abortion industry, led by Planned Parenthood, that not only continues to perform hundreds of thousands of abortions every year, but continues to deny the damage abortion does to mothers, their children and our society as a whole. **EXCERPT FROM NOVEMBER 23, 2016 NATIONAL RIGHT TO LIFE WEBSITE.**
